

Hunter Cable Assembly is a specialist supplier of

- cable assemblies
- wiring harnesses
- cable looms
- box builds
- sub-assemblies

Hunter Cable Assembly has been manufacturing cable assemblies for 20 years and has considerable expertise with a wide range of connector styles and customer requirements.

Hunter Cable Assembly (HCAL) has long-term strategic partnerships with manufacturers in the Far East who are able to offer cable assemblies for small, medium and large production requirements.

- low cost cable assembly
- flexible batch size
- fast response
- high quality

We are able to deliver whatever products our customers need to a high quality standard, on time and with a competitive price. We deliver a service that ensures our customers achieve the lowest cost of ownership.

M8 Series Circular Connectors

- IP67/68
- Protected from dust and water spray, resistant to oils and chemicals
- Designed for inductive or capacitive proximity switches, sensor devices and actuator devices
- IEC60947-5-2
- M8 screw or snap locking
- 3,4,5 poles available
- Gold-plated contacts
- Operating voltage AC 60V, current 4A
- Ambient temperature -25°C~90°C
- Samples readily available

M12 Series Circular Connectors

- M12 Series Circular Connectors
- IP67/68
- Typical applications:
 - proximity switches,
 - photoelectric barriers,
 - flow monitoring devices
 - field bus components
 - sensor devices
 - actuator devices
- IEC60947-5-2
- Design with M8x1.0 screw locking
- 3,4,5,8 poles available
- Gold-plated contacts
- Operating voltage AC 250V, current 4A
- Ambient temperature -25°C~90°C
- Samples readily available

M16/Mini-change (7/8") Waterproof Circular Connectors

- IP67
- Designed for hydraulic and pneumatic systems to protect from water, oil and chemical ingress
- Both for signal and heavy duty transmission
- Metal shell with good EMC protection
- Designed for harsh environments
- Simple construction for easy assembly
- Ambient temperature -25°C~90°C
- Samples readily available

Water and Dust Resistant D-SUB Connectors

- IP67
- Standard and high density D-SUB connector
- PCB, pigtail, solder cup
- Plastic, metal and custom shell options
- Standard and custom cable assemblies
- High reliability in harsh environments

What can Hunter Cable Assembly Ltd do for you?

- Build to print manufacturing service
- Scheduled Orders and 'call off'
- No restriction on batch size (low - high volume)
- KANBAN, FAXBAN, JIT
- Ship to line
- Design manufacture support
- Design for quality
- Cost down programmes
- 100% inspection

Contact Hunter Cable Assembly for more information and datasheets on 0118 9325 120 or email to sales@hcal.co.uk

DIN Rectangular Connector

- IP67
- Specification as per DIN EN 175301-803
- Protected from dust and water spray, resistant to oils and chemicals
- Designed for hydraulic, pneumatic and electro-magnetic actuators
- Poles 3,4,5 (including PE)
- Operating voltage AC 250V, current 16A
- Ambient temperature -40°C~90°C
